

# **RadLex® Ontology License**

## **Introduction**

RadLex® is a reference ontology for the domain of radiology and is an active, curated ontology. RadLex® is an ongoing project of the Radiological Society of North America (RSNA) under the supervision of the RadLex® Steering Committee. Development of RadLex® is funded by the RSNA with additional support from: the National Institute of Biomedical Imaging and Bioengineering (NIBIB) and National Institute of Health cancer Biomedical Informatics Grid (caBIG).

The RSNA RadLex® Website <http://www.rsna.org/radlex/> is the authoritative source of the Release Version of RadLex®. The Release Version is always current as of the date it is downloaded from the RSNA RadLex® Website. There is no charge for users to download the Release Version of RadLex®.

The RadLex® Master Ontology, as distinct from the Release Version, is under constant revision. Because it includes works-in-progress, project documents and contributions which have not yet been accepted, RSNA does not make the RadLex® Master Ontology available for distribution.

This License permits public access to the Release Version of RadLex® and makes it possible for Licensees to use it for clinical, research, educational and commercial activities without charge.

Potential users of RadLex® shall agree to the RadLex® License Agreement prior to downloading the Release Version of RadLex®. The RadLex® License Agreement and user registration are available at the RadLex® Website at: <http://www.rsna.org/radlex/>.

If Licensee institutes patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to Licensee under this License for that Work shall terminate as of the date such litigation is filed.

## **Appendix A**

### **Release Version of the RadLex® Ontology**

#### **Release File Format**

The Release Version of RadLex® is a snapshot of the RadLex® Ontology and is current as of the date it is downloaded from the RadLex® Website. The Release Version of RadLex® is currently available in the RadLex Term Browser at <http://radlex.org>.

For a format that includes a graphical representation of the relationships, see RadLex in the National Center for Biomedical Ontology's BioPortal:  
[http://www.bioontology.org/ncbo/faces/pages/ontology\\_details.xhtml?ontology\\_display\\_name=RadLex](http://www.bioontology.org/ncbo/faces/pages/ontology_details.xhtml?ontology_display_name=RadLex)

#### **File Format Conversion**

The RadLex® Ontology is file format independent. File format conversions, such as conversions of the RadLex® Ontology as a whole to an alternative representation (such as OWL or OBO) from its Release File Format, are not considered original works of authorship. Such conversions will likely include modifications, insertions, and/or deletions of RadLex content as necessitated by the representational constructs provided by the target language. File format conversions may also be characterized by modifications intended to enhance the utility of the ontology, in the target language, that are not significant anatomical content modifications (i.e. introducing closure axioms when converting to an open-world model such as OWL).

Any distribution by the Licensee of File Format Conversion shall include "RadLex®" and the goodwill associated with the RadLex® mark. The licensor shall inspect all goods using the mark for quality. As a condition of the quality control inspection, Licensee shall provide all relevant material related to File Format Conversions to RadLex Steering Committee prior to distribution.

In naming the File Format Conversions, the title shall use RadLex® as the first element of the title. Examples of titles would be: " RadLex®-OBO" or " RadLex®-OWL."

#### **Acceptance of Conditions:**

Before downloading the Release Version of RadLex®, Licensees shall register and agree to the terms and conditions of this license by clicking the appropriate checkbox at the RadLex Website, which is available at: [www.rsna.org/radlex](http://www.rsna.org/radlex).
